

BACHELOR OF SCIENCE IN REHABILITATION SCIENCES

DISCOVER

- Our bachelor's degree in Rehabilitation Sciences is a pre-professional program, designed to help you prepare for your graduate degree.
- Flexible course delivery formats are available in a face-to-face settings, online or through independent study.
- Learn from our experienced instructors who thoroughly understand the industry.
- Our graduates report high rates of satisfaction with the curriculum, program and instructors.

LEARN

The Bachelor of Science degree in Rehabilitation Sciences will focus on core competencies that will help guide you into grad school education, including:

- Emergency care
- Collaboration and teamwork
- Critical and creative thinking
- Orthopedic assessments
- Therapeutic modalities
- Therapeutic rehabilitation
- Healthcare management
- Patient care

ACHIEVE

As a Bachelor of Science graduate in Rehabilitation Sciences, you'll be able to proceed to graduate school in a variety of areas, such as:

- Athletic Training (AT)
- Physical Therapy (PT)
- Occupational Therapy (OT)
- Physician's Assistant (PA) programs
- Pre-Chiropractic
- Pre-Medical (MD)

The average starting salary for this degree varies greatly depending on location, experience level and choice of employment or pursuit of advancing education.

ADDITIONAL INFORMATION

In May 2021, the Athletic Therapy major was renamed Rehabilitation Sciences with updates also made to the program curriculum. Therefore, any undeclared students who are interested in this degree field should declare Rehabilitation Sciences as their major. Students who declared Athletic Therapy as their major prior to May 2021 will be allowed to continue the former curriculum of the Athletic Therapy program. These students will have until Summer 2025 to fulfill the graduation requirements. After that time, the Athletic Therapy program will expire and any remaining Athletic Therapy majors will automatically be transitioned to Rehabilitation Sciences.
