## Community Health Assessment Survey Coming to Weber County Homes to Address Local Needs

(Ogden, UT) In the coming weeks, Weber County residents will receive a 41-question Community Assessment Survey from the Weber-Morgan Health Department asking residents about their knowledge, attitudes, and practices related to social, financial and mental health impacts on people in their households.

activities across agencies throughout the county. It is an opportunity for residents to have a say on how to improve their health, safety and access to resources.

as important as the US Census only with an entirely
